- 23.3 At the end of each road section at a point of the organiser's choice, which shall be indicated in the Road Book, a time control will be located. This Time Control will be twinned with the Start of the Selective Section Control.
- 23.4 At the end of each Competitive / Selective section at a point of the organiser's choice, which shall be indicated in the Road Book, a time control will be located. This time control will constitute the end of the selective section and will be as described as Flying Finish. This time control will be numbered with the suffix "a" following the number of the time control immediately preceding it. This Time Control will mark the start of the next Transport/ Liaison. For example, the end of SS between TC4 and TC5 will be numbered TC4a and the flying finish will be located here.
- 23.5 Although the organisers may publish an Estimated Time for traversing the Selective Section, the entire time taken by the competitor for traversing the route between TC4 and TC4a, increased by any sporting penalties (DZ/FZ, S&G, PC, assistance etc.) would constitute the stage penalties.
- 23.6 Late arrival at the end of the transport section (Liaison/Neutralization) will attract a penalty of 1 minute per minute late. These penalties will count towards disqualification (MPL). It is further clarified that only lateness incurred at the end of the transport section, in the above example, at TC5, shall be counted towards disqualification time (MPL).
- 23.7 Early arrival will be penalised at the rate of 2 minutes per minute early. Penalties for early arrival will not be included in disqualification time.
- 23.8 It is important to note that the time taken for completion of control formalities at the Flying Finish control shall be to the competitor's account. There will be no restart or deadtime at these controls.
- 23.9 **FIXED PENALTIES**

A fixed penalty is used to enable a competitor to remain in the competition when they would otherwise be disqualified due to failing to check into certain controls or report within the time limits imposed.

- a. Any competitor failing to complete a leg of the rally as required by the regulations (i.e. failure to report at the TCs at the start or finish of a day within their opening times, or failure to complete a selective section within the maximum time allowed) will be given a fixed penalty of "100 hours" and designated as a 'DNF' (Did Not Finish)
- b. A Fixed Penalty will not be applied on the Final Leg of the event.
- c. It is compulsory for a competitor to take the start of each day.
- d. Any competitor failing to complete a section of the rally (i.e. failure to report at the TC at the start or finish of a stage within the control closing time) will be given a penalty calculated by adding the following:
 - i. Fixed Penalty of 100 Hours

- ii. 30 minutes for each Start of Stage Time Control
- iii. 15 Minutes each for all other controls.
- iv. Scratch time (24.21) authorised for the Selective Section(s) or Road Section(s) not covered + increased by 15 minutes.
- e. In no case may a fixed penalty be used by a competitor who has been disqualified by the Stewards.
- f. Any competitor who fails to finish any section/leg in the maximum prescribed time(DNF) will be entitled to participate in the next legs competition and take fixed penalties provided that:
 - i. The competitor conveys his/her intention to withdraw from the leg in writing with the nearest official before the close of the section in which the competitor is withdrawing (A format for this is appended to the road book).
 - ii. The competitor would be eligible to take the next legs start ONLY if a written application is made to the CRO along with a Re Entry Fee of INR 3,000/- by one of the crew within 2 hours of the closing of the last Time Control.
 - iii. The competitor's vehicle is presented at the opening of the next legs Start Parc'Fermè for scrutiny. Such scrutiny would be at the discretion of the Start Marshal.
 - iv. No relief will be available to any competitor who does not follow the above procedure and such a competitor would be marked a non-finisher and would not be allowed to continue in the event.
- g. For competitors who have withdrawn from a Leg, accommodation would only be provided at the end of the leg which they have started.
- h. No competitor may take a benefit of this rule more than once in the entire event.
- i. The organisers reserve the right to refuse without assigning any reason to permit any competitors from continuing participation even after availing the fixed penalties.

23.10 MAXIMUM TIME ALLOWED

- a. A target time will be given / allocated for each liaison, neutralization, service, competitive & selective sections. or their parts.
- b. Any crew exceeding this time, without any tolerance, will receive a penalty ranging from the fixed penalty to disqualification.
- c. At that moment the control is said to be closed for the competitor concerned. The maximum time allowed may be changed by the Clerk of the Course at the Stewards' discretion.

23.11 MAXIMUM PERMITTED LATENESS (MPL)

- a. The Maximum Permitted Lateness for each section or group of sections or Leg will be 30 Minutes. Any change shall be communicated by a CIB.
- b. Competitors not reporting at any control by the end of this period would be disqualified from the event and may re-join the next leg subject to the provisions above.
- c. The disqualification time, or one or more maximum times, communicated by a CIB may be modified at any moment by the panel of the Stewards of the meeting, upon the proposal of the clerk of the course. The crews concerned shall be informed of this decision as soon as possible. Disqualification from the race for exceeding the maximum permitted lateness will only be announced at the end of a Leg.

24. CONTROL ZONES

All controls, i.e. Time Controls, start and finish of Selective Sections, Passage Controls, will be indicated by means of standardised signs detailed in Appendix '3' of these regulations, asfollows:

- 24.1 The beginning of the control area is marked by a warning sign on a yellow background. At a distance of about 50~100 m, the position of the control post is indicated by a sign on a red background. The end of the control area, approximately 50~100 m further on, is indicated by a final sign on a beige background with three black transversal stripes.
- 24.2 The signs will always be located on the left side.
- 24.3 If a time control is wrongly located on the route, crews must check in as if it were correctly located.
- 24.4 If, through unavoidable circumstances, a time or passage control does not exist or is notoperative, crews must continue along the official route. For time controls, the time due at the next time control will be calculated by adding the times allowed for the sections concerned and will therefore remain unchanged.
- 24.5 All control areas (i.e., all the areas between the first warning signal and the final one) areconsidered as 'Parc Fermè'.
- 24.6 The stopping time within any control area must not exceed the time necessary for carrying out control operations.
- 24.7 It is strictly forbidden to enter or leave a control area from any direction other than thatprescribed by the itinerary of the Event or to re-enter a control area once checking in hastaken place at this control:
 - a. 1st infringement: Penalty of 10 minutes,
 - b. 1st repetition of the infringement: Penalty of 1 hour,
 - c. 2nd repetition of the infringement: Disqualification.
- 24.8 The target check in time is the responsibility of the crews alone, who may consult the official clock on the control table. The post Marshalls may not give them any informationon their target check in time.
- 24.9 Control posts shall be ready to function 30 minutes before the target time for the passage of the first crew. Unless the Clerk of the Course decides otherwise, they will cease to operate 30 minutes after the target time for the last crew, plus disqualificationtime. The Time Controls for the start and finish of Selective Sections will cease to operate at a time calculated taking into account the maximum time(s) allowed preceding this control for the last classified competitor.
- 24.10 The Road Marshalls and Post Chiefs shall be distinguished as indicated in Art.5.6 of these regulations.
- 24.11 On pain of a penalty which may go as far as disqualification, the crews are obliged to follow the instructions of the marshal in charge of the control post, who may be assistedby a controller (all possible cases will be examined by the Stewards following a written report by the marshal in charge of the control post).
- 24.12 Any failure on the part of a crew to observe the rules of the check-in procedure defined will be recorded by the controller at that post and sent in a written report to the clerk ofthe course.

- 24.13 Target times and maximum times allowed, as well as the start times of the first car will be mentioned in the Road Book. Any changes will be communicated in a CIB to all participants.
- 24.14 For safety reasons, on the proposal of the Clerk of the Course, the Stewards may decide to stop a Leg before its allotted finish. A Time Control will then be set up, acting as the end-of-Leg control in the case of a Selective Section, the time control being twinned with the end-of Selective Section control), where the times recorded will serve to establish the classification of the Leg. On the decision of the clerk of the course, this Leg may or may not be continued, neutralised or in convoy, and may or may not be under the Parc Fermè rules.
- 24.15 TIME CONTROLS
- At the Time Controls, the controllers will indicate on the time card the check-in time, which corresponds to the exact moment at which the car crosses the Yellow Clock which marks the Start of the Time Control, or the moment the competitor hand over the Time Card if the vehicle is held up in a queue of rally vehicles waiting to check in.
 - The check-in procedure commences the moment the vehicle passes the entry sign for the Time Control zone. The crew is forbidden to stop or to drive abnormally slowly between the zone entry sign and the control post. The crew may only stay in the control zone for the time necessary to clock in.
 - For Road Sections, the crew does not incur any penalty for late arrival if the time card is submitted to the controller during the target check-in minute.
Example: A crew which is supposed to check in at a control at 18h 58 min. shall be considered on time if the check-in takes place between 18h 58 min. 00 sec. and 18h 58 min. 59 sec.
 - For Road Sections the ideal check-in time is that obtained by adding the target time for completing the Road Section to the starting time for that Section. These times are expressed in hours and minutes and are always shown from 00.01 to 24.00.
 - At the TC at the end of the road section the controller notes on the time card the clocking in time of the crew and their start time for the selective section. They will permit a delay of 3 minutes between the two to allow the crew to prepare for the start.
 - After clocking in at the time control the crew must go immediately to the start of the selective section. The controller notes the real time of the start of the selective section and then gives the start to the crew.
 - If in the case of an incident, there is a difference between the two clocking in times noted, the start time of the selective section is the one considered, except if the sporting stewards decide otherwise.
 - At the time control at the end of a leg, crews are NOT allowed to check in early without incurring penalties.
 - All competitors arriving at a TC at the finish of a Leg after the maximum time allowed will be penalised by a minute for every minute late. After the closure of the control, clocking in will be done at the Rally Office with the official present. Competitors arriving after the maximum permitted lateness will be treated as being out of the race.

24.16 PASSAGE CONTROLS

To check that the crews are respecting the itinerary in the road book, the organisers may set up Passage Controls at significant locations mentioned and numbered in the road book.

- a. The control zone will be defined using the following signs:
 - 1 yellow signs with stamp (start of zone).
 - After approximately 50~100 m, 1 red sign with stamp (Passage Control post).
 - Finally, 50~100 m further on, 1 final beige signs with 3 transversal black stripes.
- b. The location of these Passage Controls will be clearly visible and signalled to crews by means of flags and, wherever possible, sited on fairly level ground. The passage might also be timed to the second and noted on a passage sheet by the person in charge of the post.
- c. Closing time for Passage Controls:

The closing time for Passage Controls will be declared taking into account:

 - The distance covered since the start of the Section concerned.
 - The time average of the Section under consideration (Selective or Time) imposed by the maximum allowed time.
 - The ideal time of the last competitor, increased by 30 minutes.
- d. The penalty for missing a PASSAGE CONTROL will be 60 penalty minutes for each PC missed.

24.17 SELECTIVE SECTION CONTROLS

- a. When a time control is followed by a start control for a Selective Section, these two posts shall be included in a single control area, the signs of which shall be laid out as follows:
 - A Yellow warning sign with clock (beginning of zone).
 - A Red sign with clock (Time Control post) after approximately 50~100 m.
 - Red sign with flag (start of the Selective Section) at a distance of 50 to 200 m.
 - Finally, end of control sign (3 transversal black stripes on a beige background) 50~100 m further on.
- b. Immediately after checking in at the time control the crew must go to the start of the selective section. The controller will enter the selective section start time and then give the start for that crew.
- c. The countdown will be announced 30 seconds – 15 seconds – 10 seconds and the last 5 seconds one by one. When the last 5 seconds have elapsed, the starting signal shall be given, upon which the vehicle must start immediately. A 2-minute penalty shall be imposed on any crew which fails to start within 20 seconds of the starting signal.
- d. The Start at the Selective Section will be given with a Start Clock or a Manual Countdown.
- e. The penalty for not starting within 60 seconds is Disqualification. In case of a mechanical problem, the competitors may push their vehicle out of the control zone within this time and park it so that it does not obstruct the passage in any way. Any obstruction will lead to immediate Disqualification.
- f. The starting intervals for Selective Sections will respect the same criteria as those laid down for starting Legs except in the case of a road penalty.
- g. Any crew refusing to start in a Selective Section at the time and in the position allocated to it shall be given a penalty of 60 minutes.

- h. If the start of a Selective Section coincides with the start of a Leg, the starting time of the Selective Section will also be that of the Leg.
- i. A false start shall be penalized by 1 minute at least or an increased time applied by the stewards based on the controller's report. This penalty does not exclude heavier penalties being inflicted by the stewards, especially if the offence is repeated.
- j. Where the section is a road section after a selective section, the check in time entered on the Time Card shall constitute both the arrival time at the end of the competitive section and the starting time of the following transport section.
- k. At the finish of a Selective Section, the stop point will be twinned with a Time Control.
- l. The start of a Selective Section may only be delayed in relation to the scheduled starting time by the controller in a case of "force majeure".
- m. Selective Sections will end in a flying finish, the signs being positioned as follows:
 - Yellow chequered sign (beginning of zone).
 - After approximately 50~100 m, 1 red chequered sign (flying finish).
 - At a distance of 150 to 300 m, 1 red signs (STOP).
 - Finally, 50~100 m further on, a final beige sign with 3 transversal black stripes.
- n. Stopping between the yellow warning sign and the STOP sign is forbidden; any infringement will entail a 15-minute time penalty.
- o. Immediately upon crossing the red chequered sign the competitor is MANDATORILY required to reduce the speed of the vehicle to less than 15 Km/Hr.
- p. At a distance of 150 to 300 m after the finish, the crew will report to a Time Control indicated by a red STOP sign. The controller will enter on the Time Card the time of arrival (hour, minute and seconds), which will also be if applicable, the starting time of the following Road Section (hour and minute).
- q. If a competitor is unable to leave the zone under his own power, he may be pushed or towed out of the zone with external help from officials and/or competitors still in the event only and will incur no penalty.
- r. A competitor who does not stop at the stop point to have his times entered will incur a penalty of 1 hour.
- s. If the windscreen is broken and it cannot be repaired, the crew will be allowed to take the start of following legs without a windscreen, with motorcycle goggles and a full faced helmet.

24.18 SELECTIVE SECTIONS

- a. During the Selective Sections, all members of the crew under pain of disqualification will wear approved safety harnesses & crash helmets

- c. The Selective Section will be timed when the centre of the front wheels of the vehicle passes over an imaginary line drawn across the road marked by the Red Chequered Flag.
- d. Timing will be done on the finish line, which might have print-out equipment and shall be backed up by hand timing.

- e. For selective sections the finish times will be recorded to the nearest second, except for the super special stage where they might be taken to the nearest tenth of a second to decide dead heats. Once the super special stage classification has been established and the starting positions for the following selective section have been determined, the tenths of a second will be deleted and the times rounded down to the second immediately below.
- f. Crews are forbidden to drive in the opposite direction to that of the Selective Section, under pain of penalties which may go as far as disqualification.
- g. During a Selective Section, unless provision is made to the contrary in the Regulations, any assistance is forbidden other than that of a racing crew using parts transported by another racing crew. However, approved assistance zones may be set up by the Organisers.
- h. The route of the Selective Sections in the Rally of Chamba traverses close to many villages. The route has been designed to avoid and bypass these inhabited areas. The detailed route as prescribed in the road book must to be followed, especially around the village bypasses. Deviation from the prescribed route will attract penalties which may vary from 5 minutes to disqualification.

24.19 SAFETY: Selective Sections are run on sections of 'road' open to the public. The greatest care is recommended in relation to other eventual users.

24.20 SUPER SPECIAL STAGES

- a. Certain Selective Sections may be termed as Super Special Stages. Notification of this will be communicated to all competitors at the Drivers Briefing or through a CIB.
- b. All the rules of Selective Section will apply to the Super Special Stages.
- c. The Super Special Stage will comprise a designated route to be traversed with designated Challenges and /or Check Points to be negotiated in the given order and direction.
- d. Any competitor would be permitted to attempt a challenge / checkpoint upto three times. In case the competitor is unable to correctly traverse the designated route in these three attempts, a missed challenge or checkpoint penalty would be awarded and the competitor would be guided to bypass the challenge and proceed further along the route.

- g. In case a competitor's vehicle is stuck or is unable to move, he may request assistance from external agencies including officials. Such assistance is entirely at the discretion of the official present. However, the assistance will be limited to pushing / towing upto 200 meters and would entail an additional supervisory penalty of **5 minutes** for each instance.

24.21 INTERRUPTION OF A SELECTIVE SECTION

- a. When the running of a selective section is definitively stopped or interrupted for one or more competitors the clerk of the course may allocate each competitor affected a time which is judged the fairest using all means at his disposal (e.g. GPS,

Passage Control times, tracking system etc.). This time can also be the slowest timeset before the interruption.

- b. This classification may be drawn up even if only one crew was able to cover the route in normal racing conditions.
- c. Should the worst time actually set to be considered abnormal, a suitable reference time (Scratch Time) may be considered.
- d. Lastly, any crew which is responsible or partly responsible for the stopping of the race cannot, under any circumstances, benefit from this measure. It will be given the time which it eventually sets provided that this time is greater than the scratch time awarded to the other crews.
- e. In exceptional cases, for safety reasons, The Clerk of the Course may interrupt a Selective Section by setting up a Passage Control and the competitors may continue the Selective Section once the dangerous area has been passed. The classification will be established by adding together the times of the two portions of this Selective Section.
- f. The Selective Section may be subdivided into segments. The timings noted at controls other than the Start & End controls by a judge of fact may be used to establish sub classifications which may be added for the section classification. These segments may or may not be congruent.
- g. Any official may for safety reasons interrupt a selective section. The benefit of such stoppage will be awarded to the competitor. The official at site will be the Judge of Fact and his decision on the quantum of time to be awarded will be final.

24.22 REGROUPINGS

The purpose of regroupings is to reduce the intervals which may occur between crews as a result of late arrivals and/or retirements. The Parc Fermè conditions apply.

- a. On their arrival at these regroupings, the crews will hand the controller their timecard. They will receive instructions on their starting time.
- b. They will then drive their vehicle immediately and directly to the Parc Fermè. The starting order shall be that of the arrival at the regrouping Time Control.

- g. Any infringement of the Parc Fermè regulations shall result in a penalty ranging from 10 minutes to disqualification.
- h. If the Scrutineers consider that the state of a vehicle has become sufficiently defective that safety might be affected, the vehicle may be repaired in the Parc Fermè in the presence of a Scrutineer. The time in whole minutes used for such repairs will be added to the competitor's penalties for that leg. Once the work has been completed a new start time will be allocated. Should the work take more than 30 minutes the competitor will be given the fixed penalty (if applicable) or disqualified.
- i. After entering Parc Fermè at the end of a leg crews must stop their engines. They may then cover their vehicles and then immediately leave the Parc Fermè. Re-entry is not permitted until 15 minutes before their restart time or to avail Service under the Fixed Service Time provision.
